

Sunny Hills Medical Center

Psychological Testing & Training

Sunny Hills Medical Center offers psychological evaluations to provide accurate diagnoses and treatment recommendations, as well as providing insight into cognitive and psychological issues.

Our goal is to provide insight into identified difficulties and deficits to help improve overall functioning.

We are an active training site for student clinicians to ensure the efficacy of evaluations of future generations of psychologists.

We specialize in psychological diagnoses, guided treatments, and comprehensive mental health care for all patients.

- Psychological Testing
- Neuropsychological Testing
- Bariatric Evaluations
- Law Enforcement Evaluations
- Differential & Acute Diagnoses
- Recommendations for Treatment
- Training & Practicum Opportunities
